

GECCo Home

Welcome to the Girls' Energy Conservation Corps (GECCo) - a program for Junior and Cadette Girl Scouts. GECCo girls learn by doing through Girl Scout events and patch recognitions.

Junior Program

Through the GECCo program, Juniors have fun, save energy, and learn how their own actions are connected to climate change.

Cadette Program

Through the GECCo program, Cadettes investigate how and where energy is produced and used, learn about climate change, and develop skills in using media to spread the word about saving energy. They become leaders in the fight against climate change.
