

Homework For Next Time (Session 2)

Please complete the following homework assignments in preparation for Session 2.

1. **Problem Sort** - Print the two Problem Sort Assignment documents (see *Homework Assignment sheets* below) and consider the questions on the Problem Sort Instructions handout. Be prepared to discuss your thoughts at the start of the face-to-face session on **February 26**.
2. **Read** the three articles in the *Reading Assignments* section below.
3. After completing the assigned readings, **write down** two statements/ideas from them that made an impression on you, or that might influence your practice. Be ready to share these with your colleagues when you meet for Session 2.

Reading Assignments for Face-to-Face Session 2

- *The Components of Numeracy, pp. 21-34.*
- *Building on Foundations for Success: Instructional Strategies, pp. 23-38.*
- *What Community College Developmental Mathematics Students Understand about Mathematics*
